Profile Summary

Results-driven 3rd year Computer Science undergraduate and aspiring Full Stack Developer with strong expertise in full-stack development and a focused interest in AI-driven systems and robotics. Experienced in developing scalable applications using MERN Stack, ASP.NET Core, and Java. Skilled across the full Software Development Life Cycle, including UI/UX design, backend development, and automated testing. Passionate about solving real-world problems through modern technologies.

Core Competencies

- ASP.NET Core
 - MERN Stack
 - Node.js, Express.js, React.js, Electron.js
 - SQL, MySQL, PostgreSQL, MongoDB, EF Core
 - Java, Python, C#, PHP, ActionScript
 - Bootstrap, Tailwind CSS
 - RESTful APIs, MVC Architecture
 - jQuery
 - Razor Pages
 - HTML, CSS, JS
 - Postman, Git, GitHub
 - AI/ML
 - Figma, Adobe Illustrator
 - Linux, Windows
 - Selenium, Apache JMeter
 - OOP, SDLC
-

Professional Experience & Projects

Freelance & Client Projects;

- **Jayamali Optical Shop Management System** - <https://jayamalioptical.lk/>
ASP.NET Core, SQL Server, EF Core, Bootstrap, jQuery & Razor View
 - Developed a **full-featured optical shop management system** with **13+ admin modules**, including products, orders, appointments, customers, reviews, and inventory management.
 - Built a responsive **e-commerce website** enabling online product purchases, service bookings, prescription management, and customer account features.
 - Implemented **order processing, appointment scheduling, email notifications, PDF invoice generation, and role-based admin access** to streamline business operations.
 - Designed and integrated **100+ business functionalities** covering product catalog management, customer engagement, payment settings, gallery management, and analytics dashboards.
 - Collaborated directly with the client to gather requirements, deliver custom features, and optimize user experience across desktop and mobile platforms.

Team Academic Projects;

- **Retail & Wholesale Shop Management System** - [Live](#) | [GitHub](#)
HTML, CSS, JS, PHP & MySQL
 - Built full-stack system handling 3 user roles. (Admin, Cashier, Customer)
 - Implemented session-based authentication across secured system modules.
 - Designed relational database with 5+ tables for inventory, orders, and customer management.
 - Streamlined order processing with dual pricing model, improving billing efficiency.

Independent Academic Projects;

- **Hotel Management System** - [Live](#) | [Frontend](#) | [Backend](#)
Full-stack MERN application (MongoDB, Express, React, Node.js)
 - **Coffee Shop Website** - [Live](#) | [GitHub](#)
HTML, CSS, JavaScript
 - **Library Management Systems** - [Drive](#) | [Drive](#)
Java (NetBeans)
 - **Python Chatbot** - [Live](#) | [Drive](#)
AI/NLP-based logic system
 - **Open Weather API Project** - [Drive](#)
REST API integration
 - **Flash Calculator** - [Drive](#)
Interactive ActionScript tool
-

Education

- **BSc (Hons) in Computer Science (UG)** – *Saegis Campus, Nugegoda* Nov 2023 - Nov 2027
 - **G.C.E Advanced Level** – *D. S. Senanayake College, Colombo 07* 2012 – 2020
-

Certifications

- Machine Learning, I Columbia+
 - MERN Full-Stack Development Skyrek
 - Artificial Intelligence & Machine Learning Skyrek
 - Code Pulse 2024 “Hackathon” Saegis Campus
-
